

EDGE High Mileage 10W-30

Fluid TITANIUM - Stronger Under Pressure

Description

As your car ages, its engine can lose performance due to friction and wear. Friction can waste up to 10% of engine performance. Aging parts of the vehicle are prone to costly repairs- catalytic converter failure is one of the most common and expensive problems faced by high mileage engines.

Castrol EDGE High Mileage combines the friction fighting properties of **Fluid TITANIUM** in Castrol EDGE that transforms under pressure, with Phosphorus Replacement Technology that helps prevent catalytic converter failure
