

TECHNICAL DATA SHEET

MARINE FUEL TREATMENT

PRODUCT #10981

TEST

ASTM

TYPICAL

API Gravity	D-1298	32.7
Specific Gravity @ 600°F	D-1298	0.857
Density @ 600°F Lbs/US Gal	D-1298	7.15
Flash Point, PMCC, OF	D-93	160
Viscosity @ 40°C, cSt	D-445	24
Color	Visual	Light Blue

Lucas Marine Fuel Treatment is designed specifically to address the issues watercraft owners experience with their engines and fuel systems. Lucas Marine Fuel Treatment fights corrosion, keeps fuel lines, carburetors or fuel injectors clean and free of deposits while lubricating and protecting vital engine parts.

Powerful detergents, including polyether amines, improve cleanliness in the fuel system and internal engine parts. It's designed for gasoline and diesel engines, 4-stroke or 2-stroke. Upper cylinder lubricants insure smooth operation and longer engine life.

Add approximately 3 fluid ounces for every 10 gallons of fuel before or after fueling.
