TESTED MILITARY TOUGH

AH-64 Apache Helicoptor R&D Team

NANO PRO MT®

DRY LUBRICANT PART # NDT11D

- **No Oily Residue**: Stays clean, nonstick, and dust resistant
- **Dries FAST**: Prevents dirt and grime from building up.
- **Nano-Powered Protection**: Evaporates clean, leaving a dry film that fights friction at the Nano level.
- **Chemically Responsible**: Ozone-friendly—CFC and trichloroethane free.
- **Rust & Corrosion Defense**: Nano-level shield that keeps parts protected longer.
- **50 State Compliant Labeling**: Ready for every shelf, every state.
- **Contains No Prop 65 Chemicals**: Clean formula you can trust.
- **It's the only Aerosol Dry Lubricant with BALLS**: We put a mixing marble in every can to ensure complete mixing and perfect performance every time.
- **Versatile as all get out**: Ideal for garage doors, RV slide-outs, truck hinges, gears, oven chains, motorcycle and bicycle chains, ignitions, motors, firearms, reciprocating mechanisms, window tracks, and more. Any place you need to lubricate without attracting dirt or dust.

FEATURING LIQUID™ NANOFLUID ENGINEERING

NanoProMT.com

ENGINEERED & MANUFACTURED IN THE USA

Part # NDT11D

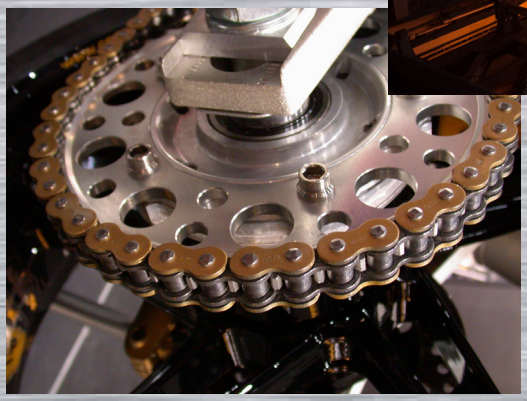

When oil-based lubes make a mess, Nano Pro MT Aerosol Dry Lubricant steps in with precision and attitude. Designed for places where dust, dirt, and sticky residues are the enemy, it delivers a crisp, clean dry film powered by advanced Nanotechnology, no graphite, No prop 65 chemicals, no compromises. Its carrier evaporates fast, leaving behind a whisper-thin layer of nanoscale lubricants that slash friction and keep metal-to-metal action smooth, efficient, and long-lasting.

Now It's tougher, cleaner, and ready for everywhere: 50 State Compliant Labeling and Contains No Prop 65 Chemicals. (Not sure if we need a color change to highlight the Prop 65 status)
