MILITARY TESTED MILITARY TOUGH

PENETRATING LUBRICANT PART # NDT11P

FEATURING LIQUID™ NANOFLUID ENGINEERING

- **Foaming Action**: Clings exactly where you spray—no running, no dripping, no mess.
- **Now It's tougher, cleaner, and ready for everywhere**: 50 State Compliant Labeling and Contains No Prop 65 Chemicals.
- **It's the only Aerosol Multi-Use Penetrating Lubricant with BALLS**: We put a mixing marble in every can to ensure complete mixing and perfect performance every time
- **VOC Compliant**: Performs hard without harsh, noxious odors.
- **Faster, Deeper Penetration**: Dissolves rust and creeps deeper into metal to deliver results you can feel.
- **Nano-Level Protection**: Shields surfaces against rust and corrosion long after application.
- **Ultra-Low Friction**: Reduces wear, boosts efficiency, and keeps parts moving effortlessly.
- **Breaks Friction Welds**: Penetrates with authority to free stuck, seized, or rust-fused components.
- **Moisture & Chemical Resistant**: Built to perform in the harshest environments.
- **Cuts Through Grease**: Breaks down buildup so your equipment doesn't have to fight through it.
- **Unmatched Creeping Ability**: Excels on locks, rusted nuts and bolts, sliding mechanisms, and anything else that refuses to cooperate.
- **Almost non-flammable formula**: See our video demonstration for what we're talking about.

ENGINEERED & MANUFACTURED IN THE USA

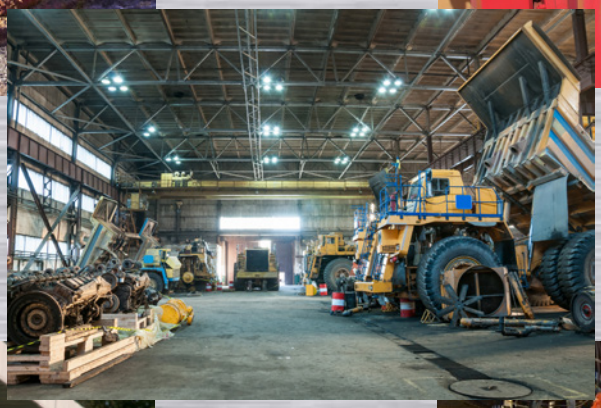

Part # NDT11P

Nano Pro MT Aerosol Multi-Use Penetrating Lubricant is a rust-busting powerhouse engineered with advanced Nanotechnology to break loose what others can't. Its Nanoscale additives dive deep into corrosion, cutting through rust at the molecular level and leaving behind a long-lasting, friction-slaying protective barrier. If this won't break it loose… grab a torch and say a prayer.
