

# Mystik<sup>®</sup> JT-4<sup>®</sup> Synthetic 2-Cycle Snowmobile Engine Oil

## OVERVIEW

- Premium synthetic base oils, combined with a special synthetic additive system designed for use in snowmobile engines, provide superior cold-temperature protection and quick starts in extreme cold.
- Unique tri-blend of synthetic components provides ideal low-temperature performance and quick starts in extreme cold.
- This balance of synthetic components enhances fuel economy, improves cold-temperature performance and high temperature thermal stability.

## FEATURES & BENEFITS

- Provides excellent protection against engine wear, rust, and corrosion, ensuring engine cleanliness and promoting longer engine life.
- Superior protection in temperature extremes.
- Pumps well in cold weather to reduce wear and increase power.
- Improves equipment performance and reliability.
- Cleans power valves for improved throttle response.

## APPLICATIONS

- For use in all air-cooled or liquid-cooled 2-cycle (injector or pre-mix) snowmobile engines including those manufactured by Arctic Cat, Ski Doo, Polaris, Yamaha, and other original equipment manufacturers.
- Recommended for use in 2-cycle snowmobile engine applications requiring API TC and JASO FC oil.
- Ideal for engines operating in extreme cold temperatures and where performance demands the most from your oil.
- Refer to equipment owner's manual for proper lubricant recommendation.

**PROPERTIES****Typical Properties for Mystik JT-4 SYNTHETIC 2-CYCLE SNOWMOBILE ENGINE OIL:**

<b>Material Code</b>	<b>663077002</b>
Gravity, ASTM D287, °API	32.9
Density, lb/gal	7.17
Flash Point, PMCC, ASTM D93, °F (°C)	194 (90)
Flash Point, ASTM D92, COC, °F (°C)	203 (110)
Pour Point, ASTM D97, °F (°C)	-54 (-48)
Viscosity, ASTM D445	
cSt at 40°C	54
cSt at 100°C	9.2
Viscosity Index, ASTM D2270	152
Visual Color	Purple
Sulfated Ash, ASTM D874, m%	0.015
TBN, ASTM D2896, mg KOH/g	4.3
