

CITGO® RD-969 and RD-1069 Diesel Engine Oils

OVERVIEW

- High-dispersancy, reduced-ash engine oils intended for use in railroad locomotive diesel engines and other medium-speed stationary and marine diesel engines of similar design.
- Meet the LMOA Generation 6 (GE Generation IV Long Life) quality requirements with the Oronite OLOA 40000 additive system.

FEATURES & BENEFITS

- Improved detergent/dispersant dramatically improves cleanliness, with outstanding protection from deposits.
- Superior oxidation inhibition and thermal stability prevent excessive viscosity increase.
- 9 TBN designed for low and ultra-low sulfur fuels.
- Non-zinc formulation protects silver bearing materials.
- Non-chlorinated to reduce cost of recycling used oil.
- High viscosity index base oils in both grades improve oxidation resistance and low-temperature performance.
- Maximum oil drain intervals.
- Enhanced particulate matter emissions control.
- Performance capabilities:
 - LMOA Generation 6
 - EMD approved for Pointers Listing
 - GE Generation IV Long Life

APPLICATIONS

- Meet the specifications of the major railroad diesel engine builders including General Electric and Progress Rail, a Caterpillar company (formerly EMD).
- Meet the requirements of the manufacturers of many large medium-speed diesel engines used in marine and stationary service.
- Provide superior lubrication of most diesel engines used in inland marine service in towboats and work boats.
